

SpeedFace-H5

Enhanced Visible Light Facial Recognition
with Deep Learning Technology

Features

- Multi-biometric verification method
- 5-inches LCD touch screen display
- Dual camera for real time face detection
- Recognition distance up to 3 meters
- Proactive facial recognition
- Fast recognition speed

3 meters recognition distance and wide angle recognition

The recognition distance has been extended up to 3 meters long which significantly improves maximum traffic rate. While most of algorithms only support 15-degree angle facial recognition, ZKTeco supports 30-degree angle facial recognition.
