ZKBio Access

## Better Experience with 7 Languages

Introduction

ZKBioAccess is a lite web based security platform developed by ZKTeco which focused on access control. Its reliable access control module for up to 10 doors comes along with friendly user interface design and simplified system architecture to ensure a better biometric identification performance.

Features

- Supports English/Spanish/Thai/Indonesian/Vietnamese/ Traditional Chinese and Simplified Chinese
- Supports multi-language real-time switching
- Supports temporary staff self-service scanning QR code registration
- Supports HTTPS protocol for data security
- New and friendly user interface design
- Reliable access control logic
- Stable, fast and consistent communication

- Automatic data backup
- Alarms and events email notification
- System log monitoring system
- Supports inBio series / C3 series devices
- Supports Visible Light Facial Recognition devices such as SpeedFace-H5 / SpeedFace-V5 / FaceDepot-7A / FaceDepot-7B
- Supports standalone access control PUSH firmware devices such as F18 / F19 / F21 / MB800 / PA10
- Available to upgrade to standard ZKBioSecurity software

System Topology

Network Switch / Router

Standalone Access Control
(Access Control PUSH)

Visible Light Facial Recognition
(Access Control PUSH)

Controller Series
(PULL)

| KR100E | K1-1 | KR100E | K1-1 | FR1200 | FR1300 |

Software Comparison

Software / Item	ZKBioSecurity	ZKBioAccess	ZKAccess 3.5
Target Market	Project Charged (System Integration)	SMB Charged (Channel Distribution)	Free Software (Channel Distribution)
Architecture	B/S	*B/S	C/S
Protocol	Push SDK	*Push SDK & Pull SDK	Standalone SDK & Pull SDK
Access Control Devices	- Access Control Panels (inBio Pro Series) - Green Label Standalone Series Devices (ProCapture-T / ProBio / ProFAC / etc.) - Visible Light Facial Recognition Series Devices	- Access Control Panels (C3 Series / inBio Series) - Standalone Access Control Devices with PUSH Firmware (F18 / F19 / F21 / MB800 / PA10) *- Visible Light Facial Recognition Series Devices	- Access Control Panels (C3 Series / inBio Series) - Standalone Access Control Devices with Pull & Standalone Firmware (SC700 / MA500 / iClock Series / etc.)
