

BioTime 8.5

Web-Based Time and Attendance Management Software

BioTime 8.5 is a powerful time attendance software that provides a stable communication of up to thousands of time and attendance devices which can be remotely managed anywhere by accessing the software using a web browser.

The latest version is equipped with new competitive functions such as roster and overtime management which simplifies the entire scheduling process of employees, built-in API to connect on client's 3rd-party software, database migration, bio photo, and geofencing mobile punches.

BioTime 8.5 also features a new dashboard where users can easily monitor all attendance summary, device's status, request approvals that are approved, rejected, and pending, and real-time punches.

Along with the features from the previous version, BioTime has never been this powerful. It gives the user full access and control in managing timetable, shift schedule, generating attendance reports, and more.

INTEGRATION WITH API

BioTime 8.5 has a standard API for third-party software integrations.

ROSTER MANAGEMENT

Administrator can easily manage multiple schedule assignments using excel import.
